

Submitter: Ann Vergnetti

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2738

As someone who lives in the Kenton area, I support this measure to help protect the environment and the air we breath living so close to the Portland International Raceway. With kids playing in our local parks near the raceway, protecting their health and all of our communities health should be a priority. I give my support to bill HB 2738.
