

Submitter: George Smith
On Behalf Of: Northwest Motor Sports
Committee: House Committee On Climate, Energy, and
Environment
Measure, Appointment or Topic: HB2738

I'd like to ask that studies on lead levels be conducted before banning leaded fuel at PIR. Additionally, leaded fuel is not used in the dragsters and race car cars so it's really a non-issue. It would be a shame to lose our beloved racetrack.
