

Submitter: David Wall
On Behalf Of: Mr Oregon SUPPORTS SB 992
Committee: Senate Committee On Energy and Environment
Measure, Appointment or Topic: SB992

I SUPPORT [SB 992]. When is Oregon going to pay off its' severe and disgraceful indebtedness?

From the TEXT of [SB 992], "...SECTION 1. The Oregon Liquor and Cannabis Commission shall study the modernization of Oregon's beverage container redemption and recycling law known as the Bottle Bill. The commission shall submit a report in the manner provided by ORS 192.245, and may include recommendations for legislation, to the interim committees of the Legislative Assembly related to the environment no later than September 15, 2026...."

***I do not believe the OLCC has the ability to improve the "...modernization of Oregon's beverage container redemption and recycling law known as the Bottle Bill."

If the OLCC had a modicum of expertise in "beverage container recycling," [SB 992] would be unnecessary.

***In practice, "beverage container recycling" is a byzantine torture.

David S. Wall

Mr. Oregon Concurs and says, " There needs to be accountability to the costs of, "beverage container recycling" and why modernizations have not been tendered to date, for analysis and implementation. At some point in administrative time, a Regime change at OLCC is required. The sands in OLCC's continued employment Hour-glass should be getting less by the day."
