

Submitter: Larry Landes

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: HB2953

As a family member of one who works with challenged kids, I see first hand how the efforts produce results. The children benefit as do the care givers who help them. "Making a difference" gives life meaning and seeing the efforts of those who work with the children, and the passion that grows as they see results, makes everyone win.

What greater impact can a person have than being able to help another person navigate life to a more successful outcome? The workers need the children and the children need the workers who teach them.

This matters and we can ALL make a difference by supporting this measure.
