

Submitter: Dale Baldwin
On Behalf Of: Northwest Drag Racing Association
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic: HB2738

As a user of Portland International Raceway since 1978 I highly disapprove of this house bill HB 2738. PIR since its construction in 1961 has provided various events for the public at large. OSHA and OHA have confirmed that there is no hazard from leaded fuel to the people onsite or nearby neighborhoods. I believe the PIR facility is a vital asset to the Portland community. This is a multi use facility with great benefits to the community. Banning leaded race gas is another angle to try and get the race track shut down.
Sincerely, Dale A. Baldwin
