

Submitter: Justin Lilienthal

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB2738

I have grown up with this place has brought so many memories for myself and my kids I would hate for the city to take over and people to shut it down because of something that is not relevant. Don't take away tracks where kids can go and not be on the streets. These are places of memories and where people come to gather at a safe place.
