

Submitter:	Molly Canham Pruett
On Behalf Of:	PIR
Committee:	House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic:	HB2738

My family has raced at PIR for decades. The Friday and Saturday night races keep young adults off the streets and gives them a place to race safely. The Beaches Cruise In during summer had raised hundreds of thousands of dollars for Dornbecher's Hospital. There are so many families that build strong bonds and relationships through the sport of drag racing. There are many business owners that contribute to our communities that race there as well. It would be a shame to lose such a great place for people to have access to. I oppose the bill. Keep PIR open and able to use gasoline.
