On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2738

As a parent living in the North Portland area within one mile of PIR, I worry constantly about the effects of leaded gasoline on my children. The air quality in this area has been shown to be among the poorest in Portland. Take care of our children and our community! We should not have to suffer at the expense of someone's leisure activity! I'm this day and age, we must do the right thing for the greatest good. Banning leaded gasoline is a necessity to ensure a bright and clean future for our community.
