Measure, Appointment or Topic: SB179

As an Oregon Resident who loves to ski, hike, bike and recreate generally, I strongly believe that we need to strengthen recreational immunity. I'm concerned that the current division of responsibility falls too heavily on property owners and I believe that unless a re-balance is provided through recreational immunity we are at risk of losing access to much of the recreation that makes this state so unique and wonderful.

Thank you for your consideration,
Finn Johnson
