

Submitter: Gabriel Clement

On Behalf Of:

Committee: House Committee On Economic Development, Small
Business, and Trade

Measure, Appointment or Topic: HB3329

This bill will absolutely be beneficial in enabling more large-scale productions to come to Oregon. In 2024, myself and so many others of the filmmaking community were able to earn a living through some of these same productions that are reconsidering where to shoot their upcoming seasons. This bill passing would likely swing that decision toward returning which would allow so many people here to not only engage in art, but also to provide for themselves and their families.
