To whom it may concern,

The purpose of this letter is to express our support and gratitude for the State of Oregon Preferred Worker Program (PWP).

As you may know, a part of our responsibilities as a Consulate is to defend and promote labor rights for Mexican citizens working in the United States. To that end we regularly hold workshops and outreach efforts to inform Mexican nationals about their rights, particularly during events such as our annual Labor Rights Week and our monthly Movil Consulate events.

The PWP has proven to be a valuable ally in our efforts by helping us to provide crucial information to our community regarding workplace injuries and the process of returning to work after a recovery. The PWP's assistance in this regard has made a significant impact, and we strongly support its continued operation and success.

Sincerely,

Carlos Quesnel Meléndez
Head Consul
