

Submitter: Rodney Ragsdale

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB179

This law is critical for the future of recreational activities of many different sorts. I am an avid paraglider and being able to land on someone's property without being a liability for the property owner is important to me. I would like to see property owners protected from frivolous lawsuits which hamper their ability to allow recreational activity take place on their land.
