

Submitter: James Moore

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2738

Committee Members,

My family and I are long-time users of Portland International Raceway and based on the studies performed on lead fuel concentrations at Portland International Raceway and DEQ's findings that the levels of lead reaching the community were below levels that would be expected to harm health, I am opposed to HB 2738.

Based on the community health impacts from lead fuel, it makes sense to investigate all lead fuel use in our state and ways to reduce or phase out use in a reasonable and thoughtful manner.

I urge you to vote "no" on House Bill 2738.

Thank you for your time and consideration.
