

Submitter: Morgan Fitzgibbons

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2738

I live near PIR and am raising two young girls. It baffles me that we allow cars to use leaded gasoline at PIR. We are altering the trajectory of thousands of lives for what? So car can go vroom? It's a joke. Why can't the cars use unleaded gasoline? There's a reason they outlawed leaded gasoline in every corner of the civilized world. This isn't hard. Do the right thing.
