

Submitter: Tammie Thompson

On Behalf Of:

Committee: Senate Committee On Human Services

Measure, Appointment or Topic: SB20

The disabled community wants to help people be part of their community. Without this bill, people will still not be able to work because we have put a restraint on them. This affects everything about a disabled person. Most already feel thrown away. And, then to only let a disabled person (who must spend money just to pee among other things) make a wage that is at poverty level, is ridiculous. The disabled community wants to work, wants to engage, needs social interaction, and this is keeping many people from doing that. I am paralyzed from the waist down and I have seen many in my community left forgotten. Please, please, please help them by voting yes on SB20.
