

Submitter: Tearney Ford

On Behalf Of:

Committee: Senate Committee On Early Childhood and  
Behavioral Health

Measure, Appointment or Topic: SB691

I believe this Bill is extremely necessary and would be very beneficial. The 5 day compassion stay and expanding Project Nurture are definitely my top two favorite points. I myself have benefited from Project Nurtures help and fully believe there should also be a similar program for fathers of the baby to receive care/support/resources as well as the mother. That way families can work on entering recovery as a family. I 100% support this Bill and am hopeful that you will make the right decision to support this Bill as well. Thank you.
