

Submitter: Meredith Peyton

On Behalf Of:

Committee: House Committee On Behavioral Health and Health
Care

Measure, Appointment or Topic: HB3042

It is my hope that there will be a deep and honest consideration of this bill and the wording of this bill.

I want what is best for our patients, colleagues and ourselves. We NDs strive to maintain the best in safe practices and uphold standards of care within our profession.

I do not reject or oppose disciplinary actions or investigations, I do oppose vague verbiage which may lead to potentially harmful and unnecessary consequences.

Thank you
