900 Court St NE  
Salem, OR 97301

Re: Support for HB 2698

Dear Chair Marsh, Vice-Chairs Anderson and Breese-Iverson, and Members of the Committee:

West Tuality Habitat for Humanity urges your support of HB 2698, which establishes a statewide goal for homeownership.

Homeownership is a priority for the majority of Oregonians. It is a time-tested means of building generational wealth and a reliable way to improve racial and economic equity. As Oregon strives to significantly increase housing production, a statewide homeownership goal will keep housing and homeownership top of mind for decision-makers at all levels of government.

Oregon has one of the lowest homeownership rates in the nation, ranking 43. Home equity represents the largest share of household wealth in the United States, especially for low-income households. Homeownership has many societal and social benefits, including increased civic and social engagement, improved mental and physical health, and better academic outcomes for students. These benefits add significantly to the livability of a community as well as lowering crime rates and economy security.

Oregon has one of the lowest homeownership rates in the nation. According to Census data, Oregon's homeownership rate hovers near 64 percent, ranking Oregon 43rd in the nation [American Census Survey Homeownership Data]. We can do better.

Seventy-four percent of Oregonians who currently rent consider achieving homeownership one of the highest priorities in their lives (48 percent) or at least a moderate life priority (26 percent). These numbers are even higher among younger generations (81-88 percent for Gen Z, Millennials, and Gen X) and Black, Indigenous, Latino/a/x, and People of Color (96 percent) [Oregon Realtors Statewide Housing

Survey].

While there are many things Oregon can do to increase homeownership and begin to close existing homeownership gaps, one thing we can do immediately is establish a statewide homeownership goal in statute. As our state works to increase housing supply at a variety of income levels, HB 2698 will help to center Oregonians' aspirations to plant roots in their local communities and begin to enjoy the many benefits of homeownership.

Thank you for your consideration and service,

Lois Hornberger, President  
Board of Directors  
West Tuality Habitat for Humanity
