

Submitter: Sue Craig
On Behalf Of: myself
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB354

As a keystone specie, Beavers give to our earth so much more than you and I do as humans! They need to be present ALL over our state, as they once were. They will help all areas store underground water, provide clean still water for fish, provide protection from fire with their ability to channelize areas around rivers, and much more. This is really good plan to help our earth in so many ways. Thanks you for your considerationl. Sue Craig
