

Submitter:

Clair klock

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB179

Senator Prozanski, Vice-chair Thatcher, and members of the committee

I'm Clair Klock from Corbett, a retired farmer from Corbett. I urge your support of SB179 with the provision that it include all governmental agencies and special district that hold property that may be recreated on. Trail use(even paved) is a inherently hazardous recreational activity and the public needs to take responsibility for that. I will include those properties that may not be currently open to the public but in this bill. It is important to provide protection for these agencies and districts the hold land not open to the public in case a trespasser may be injured on the property. I will not elaborate any more as you have other testimony that explain the benefits of this bill and I needn't be redundant.

Thank you for your attention
