

Submitter: Rachel Najjar

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure, Appointment or Topic: HB3042

This bill is unacceptable and is unconstitutional, it has no place in our state. Naturopathic physicians undergo rigorous training and approach the health of their patients as a whole person. With the current state of our world, we need to be supporting them right now more than ever! They are the ones healing people from things that medical doctor's aren't. They are a pillar to our community and as a patient and supporter for ND's, I urge you to throw it out immediately. If you want to hold a healthcare provider to a higher standard, why aren't you starting with Medical Doctor's? This is government over reach in the worst degree and has no place in healthcare. Thank you for your time and consideration. It's a hard NO for me!
