The Baker County Soil and Water Conservation Districts (SWCDs) consisting of Baker Valley, Burnt River, Eagle Valley and Keating SWCDs are requesting that HB 3135 be amended to include the four Soil and Water Conservation Districts in Baker County. We have worked with partners, landowners, and other agencies for over 20 years to help with juniper removal and have proven to be a leader in conservation. Please consider adding Baker SWCDs to the list of counties able to receive funding to continue this important conservation work.

Thank you
