

Dear Janelle, thank you for sticking with me as a ILP worker! You have been so kind, helpful, and patient with me and I've appreciated it. Always love chatting with you and grabbing a nice drink! You try and help me out whenever you can with errands, advice, pet things, and much more! It's been super great having someone like you to help and me in adulting and in general caring about me! Hope this 2025 is a lucky year for you and that your job hasn't been burning you out. May you be kind to yourself as you are to others,

Best wishes! - Sincerely,

WISHING YOU A
