On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2738

I've been going to, and racing at PIR collectively for over 30yrs. I've only ever seen it try and be dismissed, dismantled and disregarded by the city of Portland. Which is beyond sad, and concerning to me. this is another step towards the track closing down, and that worries me. These race cars need the race gas, to use at a race track!! this is one of very few spots left to legally race at, and it has a lot of history. Please don't allow another nail in its coffin. for these reasons, and more- I oppose HB 2738
