

Submitter: Julie Greiner

On Behalf Of:

Committee: House Committee On Behavioral Health and Health
Care

Measure, Appointment or Topic: HB3439

I am writing to urge you to support HB3439. I am a disabled Oregon voter and resident. I rely on naturopathic care to maintain a good quality of life while living with a disability. Indeed, it is the naturopathic care I received and continue to receive that saved my life years ago when I became ill with a serious disease. Through this care I was able to recover over time and become stable. It is this continued care that allows me to remain stable and have a good quality of life. Naturopathic medicine is medicine and should be treated the same and reimbursed the same.

With care,
Julie Greiner
