

Submitter: Mike Lombardi

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2738

Regarding Leaded fuel bill proposal

This a weak attempt to stop activity at PIR

Why doesn't the city get behind the track and support it like all other sporting venues.

I have been involved in Motorsports at many different levels over the years. I'm an SCCA member for the last 10 years and support and work F&C for all the local club events and Pro events. I would think the county and city would support the venue with more funding and and make PIR world class Motorsports venue.. the financial rewards would be quite a boost for the tourism for Oregon.

Thanks for your time, Mike Lombardi
