

Submitter: Russ Werner  
On Behalf Of: Family  
Committee: House Committee On Climate, Energy, and Environment  
Measure, Appointment or Topic: HB2738

As a long time user of PIR, the track that this bill specifically targets without naming, I am OPPOSED to this measure.

The last time the air quality around the track was tested, it showed no measurable difference from areas not near the track. I think this bill is just another attempt to shut down a great facility that benefits many from Portland and surrounding areas. Passionate pleas from families with children are not based on sound science or economics, only emotion.

Passage of this bill could undoubtedly make myself and other racers from the entire Northwest rethink where they spend their racing budget.

Please OPPOSE HB2738.
