On Behalf Of: Mr Oregon OPPOSES HB 3018
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic: HB3018

I OPPOSE [HB 3018]. When is Oregon going to pay off its' severe and disgraceful indebtedness?

[HB 3018] is a good idea and will occur in the future.

Someone with a brain, needs to address the economic harm will occur to certain food waste generating and required separation of food waste entities such as Hospitals, Schools, Prisons, Restaurants et cetera and those contracted to haul the separated food wastes, the operational and regulatory costs to operate composting sites.

[HB 3018] is an enormous undertaking with many moving parts, none of which have any projected costs to the taxpayers.

The absence of any projected budgetary allocation and from what Funding Source(s) will be used, is from this taxpayer's perspective, an indicator of congenital incompetence requiring [HB 3018] to face summary dismissal, with dispatch, from the Legislative Agenda.

[HB 3018] will produce significant inflationary pressures on Oregon's economy.
