

Submitter: Duncan Gray  
On Behalf Of: Racers  
Committee: House Committee On Climate, Energy, and Environment  
Measure, Appointment or Topic: HB2738

The track provides an uncommon ground for a niche community where it has stood for decades. Taking the option to run race fuel can and will deter people possibly causing them to take to the streets. Keeping the option of race fuel how it has been will continue to promote safe controlled driving to the community and youth that are coming into the motor sports world.
