

Submitter: Julio Cardx

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB2738

If the track gets removed there will be an increase of street racing and takeovers in all nearby towns and cities. It would be wise to allow people to drive recklessly on a track where there's help if something went wrong rather than on the street where they can injure and/or kill themselves and others.
