

This bill directly targets PIR as a company and a community. PIR is the home to a community that has nowhere else to turn and has been a key part of Portland for decades. PIR brings the city events and revenue every year, and connection to communities that we would not have without it. This bill would hurt PIR and the communities that associate with it.

Don't close communities that have no where else to turn with expecting street racing to then increase as well. Help keep the integral parts of Portland themselves by keeping PIR alive and flourishing.

Thank you, and do the right thing.
