

Submitter: Shirley Staatz

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2738

To Sponsor Nelson. I oppose the HB 2738. It would cause a loss of revenue to the city. But the biggest impact would be to the community of auto racing. This becomes a family event, another participant sport, and variety for the use of the facility.

Also, where is the research for proving that leaded fuel at PIR elevates lead in the air in the community as a whole? And, if passed, I am sure you have plans for use of the land. What are they? That needs to be reported, if it hasn't been done.

Thank you.
