

Submitter: Jake Wright

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2738

Leaded race fuel is needed to power a lot of the cars used at PIR. It is essential for these fuels to be used because without it the races held there are extremely limited. With such limitations the city of Portland and surrounding areas will lose an important piece of history and entertainment. The people of Portland and surrounding areas will also lose their hobby. Racing is a big part of American history. Let's not ruin it
