Measure, Appointment or Topic: HB2738

I oppose this. How are you going to get the airplanes that use leaded fuel to quit? It's impossible, or it's going to take a long, long time to make that happen. Not everyone at the track uses leaded fuel. That track has been there way longer than all of the houses. The people who built and moved near the track knew what there was a race track there before they moved there.
