

Letter of Support for House Bill 2594 - Dental Lab Standards

Dear Representatives:

I write to share my support of House Bill 2594 and its purpose of improving dental laboratory standards.

HB 2594 increases safety by requiring transparency in materials used in dental restorations. It is important that dentists receive accurate information about the dental restorations that they order for their patients. This bill sets that standard for dental laboratories and will help dentists to continue to ensure high level care for their patients.

I urge you to support House Bill 2594 as it will benefit dental laboratories, dentists, and their patients.

Respectfully,

Mark Hidde
