Measure, Appointment or Topic: HB3224

I OPPOSE HB 3224.

With the increase of illegal criminals making Oregon their sanctuary, the prohibition of criminal history checks need to be removed for safety of others, but it doesn't take a study. This bill will either expand background checks to the maximum level, infringing on privacy of personal information when not needed. Or, if it is reduced to the lowest level, it could increase risk. This is not a case of one law fits all circumstances, making this bill a waste of time.
