CP3 has played a vital role in transforming the way services are delivered and to whom they are provided. Their collaboration with the Keeping Families Together team has been instrumental in utilizing data to identify service needs and justify resource allocation. Additionally, their support has been invaluable to the housing team at Mid-Willamette Valley Community Action Agency, enabling us to make well-informed decisions based on comprehensive data analysis.

CP3's ongoing partnership and dedication to the communities they serve are evident in their proactive approach, innovative vision, and commitment to meaningful action. Their contributions strengthen and enhance the capacity of other organizations, helping them better serve individuals and families in need. The presence of CP3 in this work is essential to the long-term success of our collective mission to create stronger, more resilient communities.
