Measure, Appointment or Topic: SB1019

My name is Zach Fidler. I am a seedstock producer in Redmond.

I support this bill. The sunset is a critical component and allows enough time to correct problems burdening both the brand department and the producers to which it was designed to serve. The sunset forces accountability and action rather than prolonging and increasing financial burden to both the State and it's producers. Additionally, the concessions for the dairy producers make sense. The dairy segment operates very differently than the rest of the beef industry and thus their needs of the brand department are uniquely less. Consideration for their needs is just.
