Measure, Appointment or Topic: HB3062

Dear Chair and Members of the Committee

Please pass HB 2684 to protect children's health at school. Children are vulnerable to toxic chemicals and deserve a safe place to grow learn and grow. All Oregon schools need to update pest management practices as required by law. Currently a number of schools have not updated their IPM plans in 15 years, despite changing science and changing requirements

Thanks for all you do
Kathleen Boylan
