Measure, Appointment or Topic: HB2977

Please support HB2997. The small tax shared broadly that it establishes will provide a significant amount of revenue to support habitat preservation and help save endangered wildlife. Oregon is an iconic state for those who live here and the many visitors because of the natural environment the state is known for. That includes the wildlife, be it the spring bird migrations in Malheur County or the fall steelhead run on the Rogue River. Thanks for supporting this important legislation.
