Committee: Senate Committee On Education

Measure, Appointment or Topic: SB604

As a former Oregon resident, I would like to support SB604. This is a great opportunity for underrepresented students, first generation students, low income students, and more. My mother was a refugee from the Cambodian genocide and she struggled to support both my brother and I through college. SB604 would have been very helpful for me when I was in college and I think it would be great for any student who struggles with the financial responsibility that comes with higher education.
