

Submitter: David Wall  
On Behalf Of: mr Oregon OPPOSES SB 222  
Committee: Senate Committee On Energy and Environment  
Measure, Appointment or Topic: SB222

I OPPOSE [SB 222].

Again, the King of Port Orford is remiss, 'No' plan and 'No' funding source(s) or budget allocations for [SB 221].

What is a lowly taxpayer forced to do? Simple, recommend [SB 222} should be rejected and denied.

Fisherman and the lack of manmade habitat and lack of fishing moratoriums are the most deadly prey to salmonid fishes.

\*\*\*Port Orford needs a 'Deep Water port ' to support a Liquid Natural Gas Terminal. Dredging is an issue.

\*\*\*Solve the problem. A LNG facility will facilitate and enable Co-generation plants to generate reasonably priced electrical power.

Let us all say at once, "Screw Wind Mills and Screw Solar Farms."

David S. Wall

Mr. Oregon Concur and says, " The King of Port Orford needs to get back to basics- Reasonably priced electrical power and fishing moratoriums with Habitat restorations."
