On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: HB3062

Testimony on House or Senate Bill # 3062
Myah Muldoon, Parkrose High School Student
February 20, 2025

My name is Myah Muldoon. I am a student at Parkrose High School." I'm also a part of the community, and something you should know about my community is that a lot of the residents are athletes. I am worried that if we don't have clean air, our lungs will be damaged. I support the clean air act HB3062 because as an athlete having clean air is very important. Also, not only will it will it makes us healthier and succeed more, it will also make us a better community by encouraging people to go outside and be more active

I would personally want clean air because a couple years ago the California wildfires spread to Oregon and polluted the air making it hard to see and breathe. It was extremely hard because as a softball player. I was outside with the polluted air. Breathing in all the smoke and ash was horrible on my lungs and it almost sent me to the hospital. Having clean air is so important, especially if you just had a baby, newborns are so fragile and easier to get sick. HB3062 would help us make it to where companies can't just build massive freight houses or pollute the air more than it's already polluted. It can also help us get more electric vehicles so that the gas isn't being wasted and polluted.

Once again I support the clean air act HB3062 because clean air is so important to us young minds there could be less sickness and death all over the states. As for athletes, it could make us better than ever. I would personally love to see everyone be successful and be able to breathe in good clean air because we deserve the right. We shouldn't have to earn it. Please take my thoughts into consideration, thank you

Sincerely

Parkrose student Myah Muldoon
