Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: HB3062

Testimony on House or Senate Bill # HB3062  
Nevaeh Vangorder, Parkrose High School Student  
2/20/25

My name is Nevaeh Vangorder. I am a part of the Parkrose community, and something you should know about my community is that everything and everybody is diverse, from the people, to the sports we play. Bill HB3062 helps protect sensitive communities while also giving us economic development. And I believe that's what my community needs to become successful. We need all the help we can get.

I am an athlete on the track team and have been for previous years. The air quality is something that's important to me because my team practices outside the majority of time and it's been harder on my breathing and health. Asthma is something that runs in my family which puts me at greater risk from breathing in small particles and irritating gases. I want to succeed with my track goals.

I hope we can move forward with Bill #HB3062 , Not only for me but for everyone in my community that deals with Asthma and health conditions due to the air quality. I'd like to thank all the committee members for listening and reading my testimony.
