

Submitter: Don Kuhns

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure, Appointment or Topic: HB2977

Oregon created a blueprint for recovering our most vulnerable and imperiled species known as the Oregon Conservation Strategy and Nearshore Strategy. The goals of the state wildlife action plans are to maintain healthy fish and wildlife populations by maintaining and restoring functioning habitats, preventing declines of at-risk species, and reversing declines in these resources where possible.

For too long, the Conservation Strategy has lacked the necessary resources and funds to fully implement the recommended conservation actions.

Please help Oregon recover our most at-risk species by supporting HB 2977 today!
