

Submitter: Alika Herniangkit

On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: HB3062

Hi, my name is Alika Herniangkit. I am a Junior in high school and I am a part of the Parkrose Community. I am in full support of the HB3062 bill because there are tons of big factories and buildings around me that can/do pollute the air around. Which can potentially harm my health, and those around me very badly. I support this bill because it stands for the health and safety of my community, therefore this bill makes a big impact on me.

The reason I deeply support this bill is because my father is not in the best health conditions. I know that fresh air helps him when he is having bad days but the air around us is not very fresh. This most likely affects his health even more. This hurts me to see because I know that he wants and tries to make himself feel better but it's hard when everything around him is toxic. The sound of the train tracks rattling from a mile away, smelling the toxic gasses that it puts off.

I really hope you take the Parkrose community's health and well-being into consideration. Thank you so much for listening to my reasoning on why I support the HB 3062 bill.
