

Submitter: Alvaro Munoz De Lara

On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: HB3062

My name is Alvaro Munoz, I am a senior in Parkrose High School and something you should know about our community is that we are the most diverse highschool in portland Oregon. I am asking you to support HB3062

The reason this matters to me is because I'm a Parkrose student and will have siblings that will go to this high school currently enrolled in the Parkrose middle school. I want to change this before I graduate high school and make this community better. From personal experience, I have taken public transportation, and having to wait for it to come I would have to wait while 18 wheelers drive by and dump diesel molecules over me and have to breathe that in.

HB3062 would prevent communities like Parkrose from getting even more diesel and other pollution dumped on them. So please help us pass this bill for a better environment for everyone because everyone deserves clean and fresh air to breathe in.
