

Submitter: Eva Lee

On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: HB3062

Good afternoon, my name is Nevaeh, and I am part of the activism class at Parkrose High School. In preparation for this hearing, our class has been studying activists and how citizens' voices can be used to advocate for our communities, so we were ecstatic when given the incredible opportunity to take action and fight for our future, and the future of generations to come.

We want to demonstrate our utmost support for a ban on high emission trucks and industrial vehicles. I am part of the Parkrose community and something you should know is that we are a lower income community. So industrial buildings bringing pollution and health problems can be a bigger issue for communities that can't afford better health care.

I believe that speaking out on the issues that affect me and the people around me is important because we deserve clean air like anybody else.

Thank you for taking the time to read my letter and hear my point of view.

Sincerely, Nevaeh Lee
