

Submitter: Tiashinay Bolian

On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: HB3062

I'm Ti'Ashinay Bolian. I am in high school a part of the parkrose community. I am in support of HB3062.

I think our environment is already bad, and this would prevent more pollution in certain areas, like Parkrose. My little brother has asthma, and he plays sports. It's already bad that he needs an inhaler to help him breathe. It makes me feel overwhelmed. I have a lot of little siblings who play outside, but sometimes the air is bad. Like when there are fires, they can't go outside because of what they inhale. Sometimes I have trouble breathing myself and just wanna go outside and take a deep breath but I'm not sure if what I'm taking in is good for my body or even what I am inhaling.

In conclusion, try to find a solution to the problem. Maybe try to find somewhere it would be safe to build a company like that. Please vote yes on HB 3062 Not just for me but for all of are parkroses community members health
