

Submitter: S Orlando
On Behalf Of:
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB427

I am asking that you support this bill to protect water rights for now and the future. The natural flows protect the crucial environment and habitat that many species survive off of including native fish. It's important that we can conserve these environments for a thriving ecosystem to last into the future not just for us humans but the species that were living here before us.
